

TRACKER

WEST COAST IPA

REFORMATION BREWERY

Tracker

Crisp, bright, & built for the long way home, *Tracker* is a hop-forward West Coast IPA that finishes dry. Perfect for chasing daylight, following the trail, and going “just a little farther.”

Starting with a North Star Pils base & a snappy, balanced bitterness. Freestyle Nelson Sauvin & Simcoe Cryo lead the charge with white grape, citrus zest, and pine, while the dry hop pulls out extra tropical fruit & a dank, resinous edge.
